**T**his property in British Columbia was one of the first glamping resorts to open in North America, and the first in Canada. The whole experience is pretty spectacular, starting with a ride in a horse-drawn carriage, and encompassing a series of adventures focused on the ocean, such as whale watching and deep-sea fishing. The glamping tents are amazing: They have wooden hot tubs, which is perfect since the weather is nicely cool in the summer. [wildretreat.com](http://wildretreat.com)
